## **A WORD ABOUT THIS REPORT ...**

Clemson University's Comprehensive Annual Financial Report was prepared in accordance with generally accepted accounting principles (GAAP), and accordingly, reflected the changes promulgated by the implementation of Governmental Accounting Standards Board Statements No. 34 and No. 35, which among other changes, eliminated the presentation of financial information by funds, eliminated double-counting of some financial statement items, and required the capitalization and depreciation of costs that were previously expensed in the fund accounting model.

Many of the schedules and statements included in this report are provided to assist management in the assessment and comparison of financial data. This information is not presented according to GAAP, and in many cases, is not directly comparable to balances and totals in the Comprehensive Annual Financial Report.
