Item 7. Educational Policy Committee
Statement: Chairman Gressette called on Mr. McCraw for the report of the Educational Policy Committee. Mr. McCraw in turn called upon Provost Rogers to present the Committee’s two action items.

Action Items

A. Trustee Scholarship Program
Statement: Provost Rogers reported that the Trustee Scholarship program had been designed to supplement the State’s Palmetto Fellowship program, with the result being a full scholarship to Clemson. He noted that some students have other scholarships in addition to the Palmetto Fellows’ award, and the $3,500 Trustee Scholarship often provides more than is needed to round out a full scholarship. The Trustee Scholarship is also restricted to in-state students, while in some years the University is in greater need of resources to attract bright out-of-state students. For these reasons the Administration requests authority to make the Trustee Scholarship Program more flexible. Specifically, the Program should be modified to permit awards to out-of-state students, and the amount of the scholarship should be either $2,500 or $3,500, whichever amount is more appropriate to achieve the goal of awarding a full scholarship to Clemson.

Action: Mr. McCraw made a motion to approve the modifications recommended by the Administration. Mr. Swann seconded the motion, and the vote of approval was unanimous.

B. Termination of Master of Agriculture Program
Statement: Provost Rogers reported that the Master of Agriculture degree program has suffered low enrollment for the past five years, producing three graduates in only one of the five years studied. Despite an investment of time, energy, and money over the past two years, enrollment has not increased. Consequently, the Administration recommends terminating this degree program and reinvesting the savings back into the Agriculture Education program. Provost Rogers emphasized that agriculture majors are being reinvigorated at Clemson, noting that despite the termination of this program the number of agriculture majors has increased from 300 per year to 1000 per year during the past eight years. He reported that investments have been made in areas where excellence has been achieved and where student demand is high.

Action: Mr. McCraw made a motion to terminate the Master of Agriculture degree program. Mr. McTeer seconded the motion, and the vote of approval was unanimous.

Mr. McCraw concluded his report by promising more study on this opportunity.

Item 8. Student Affairs Committee
Statement: Chairman Gressette recognized Bill Smith for the report of the Student Affairs Committee.
**Action Items**

A. Housing Fee Increase  
**Statement:** Mr. Smith reported that the Committee had struggled with a difficult issue during its meeting the prior day, noting that good discussion had taken place and both sides of the debate had been thoroughly aired. The result of the discussion was a recommendation for a significant housing fee increase, which although not desirable, was necessary for the following reasons: (1) housing fee increases have been held to a minimum for the past five years, and some of those years have seen no increase at all; (2) expenses in the housing budget will rise this year due to increases mandated by the State and by the University; and (3) life safety concerns have prompted the University to accelerate sprinkler installation in high-rise dormitories, resulting in faster depletion of the Housing Improvement Fund.

**Action:** Mr. Smith made a motion to approve the 5.8% increase proposed by the Administration, and Mr. McCraw seconded. Vice President Almeda Jacks stated that she knew students were unhappy with the magnitude of the proposed fee increase, but that no better options had been identified. Mr. Smith noted that the Committee had heard from students during the meeting yesterday, and he circulated a resolution from the Student Senate adopted since the Committee’s meeting opposing the fee increase (Attachment 2). Despite the student’s opposition, Mr. Smith advised that the Committee felt the full 5.8% increase was necessary to discharge the Board’s fiduciary duty to the University. Following the discussion, the Chairman called for a vote. The motion was unanimously approved.

B. Health Service Fee Increase  
**Statement:** Mr. Smith reported that the Committee had tabled this proposed fee increase until its April meeting, at which time all across-the-board mandatory fees will be considered.

- Graduate Student Government is working with the Faculty Senate to permit on-line evaluation of faculty members.
- A recent rental fair for graduate students and local landlords was well received.
- An on-line rental resource for prospective graduate students has also been well received.
- The graduate student portion of the Solid Orange campaign leads the University in participation with a 200% increase over last year.

Mr. Gevaert concluded his report by noting that although the Solid Orange report distributed at the meeting showed graduate student goal attainment at 99%, he has personally strong-armed two students whose participation brings the total to 100% of the goal. The Trustees applauded his efforts, and Chairman Gressette thanked Mr. Gevaert for his report.

He concluded by reporting that the Conference Center and Inn are performing well, and the reserve account for the conference center is very healthy compared to its performance at the same time last year.

Item 12. President's Report
Statement: Chairman Gressette called on President Barker for his report. President Barker thanked the Trustees for the time they had granted for his transition into office, as well as for their office visits and their counsel on various issues. President Barker updated the Trustees on the following items:

• The development campaign is progressing very well, with momentum building.
• In the area of research, we need a clearer understanding of the obstacles and opportunities for research on campus. President Barker has scheduled a research summit in February to pursue issues outlined in the report of the Commission on the Future of Clemson.
• A strategy for addressing library deficiencies is being developed, with short-term and long-term strategies based on public and private resources.
• His study of Clemson history has pointed out the ongoing relationship between the University’s Presidents and the South Carolina General
Assembly. His philosophy is to treat each legislator like an annual donor who gives $1.75 million each year to Clemson.
