The Treasurer of the Clemson Agricultural College is further authorized by this resolution to execute the assignment of the stock in behalf of The Clemson Agricultural College."

Approved

46. It is doubtful that the Student Cooperative can finance a book store to meet the needs of the college. It may be unwise and unsound for the college to enter into an agreement with any sort of cooperative. The President therefore recommended:

(a) That the college assume full responsibility for handling all books essential to the needs of all students.

(b) That the college offer to purchase books and essential supplies now held by the L. C. Martin Drug Store

(c) That a special account be established in the name of "The Student Exchange" to be administered entirely by the college.

(d) That moneys accruing from sales, after all expenses are deducted, be budgeted to meritorious and worthy student needs.

(e) That student organizations be requested to encourage R.O.T.C. students in lower classes to purchase second-hand books from students in upper classes as a means of reducing the cost of their education.

(f) That veterans who do not wish to keep books that the government has given and issued to them be advised to give them to non-veterans as a means of helping those who are burdened with the full cost of obtaining an education at the college and as a means of helping the parents of non-veteran students.
The representatives of the Student Cooperative and the Veterans Organization were called to appear before the Board for a hearing. The following were presented and each were given an opportunity to make a statement and answer questions asked by various members of the Board:

Professor B. E. Goodale, Faculty Student Advisor.
Professor W. T. Ferrier, Faculty member of Committee appointed by the President.
K. L. Crawford, President, Veterans Organization.
Dan Sharp, Veterans representative.
Ray DuBose, Veterans representative.
Tally S. Fox, Veterans representative.
Butler W. Kelly, Jr., President, Board of Directors - Student Cooperative.

Professor Goodale stated that he was present only in connection with duty as a Faculty Student Adviser and had no statement to make in connection with Student Cooperative.

Dr. Ferrier stated that at this time the Student Cooperative was not asking for book franchise to handle Veterans' books but was asking for authority to handle used and new books and supplies, with profits to be prorated to those who buy. The Cooperative proposed to start with capital on hand and expand with profits. The Student Cooperative did not propose to involve Alumni with small loans. Mr. Ferrier stated that his investigation of College Book Stores showed that the majority were operated by college departments and only one known as a true cooperative.

Mr. K. L. Crawford stated that the Veterans Organization was not dogmatic in recommendations. The organization was looking forward to competition from present private business establishments and that any plans to improve the situation would be acceptable.

Dan Sharp had nothing to add to what the others had stated.

Butler Kelly had nothing to add other than he saw where the Board of Directors of the Student Cooperative had hard work ahead of them.

Ray DuBose had nothing to add other than he felt that the Student Cooperative would be good for both the students and the College.

Tally S. Fox attempted to show that cooperatives in other lines of business had been successful.

The representatives having nothing further to present withdrew from the meeting.

The Board had a general discussion regarding the details brought out during the hearing.
Moved by Mr. Benet and duly seconded: That representatives of student organizations be advised that it had not been the custom of the Board of Trustees to state what business may be conducted off college property and did not assume right to approve or object to establishment of any business not connected with the college.

Approved

A Moved by Mr. Barnette and Seconded by Mr. Thornhill: That the college take steps to establish facilities for handling books and supplies.

Approved

B Moved by Mr. Cooper and duly seconded: That on establishing an exchange that the college offer to purchase needed books and supplies then held by the L. C. Martin Drug Company.

C Discussion developed that no formal request had been made by the Athletic Council to take over the book business.

Moved by Mr. Cooper: That exchange be established as Student Activity.

Approved

D Moved by Mr. Young: That all practical discount on sales be allowed but that sufficient margin be added to operate the activity.

Approved; Mr. Thornhill voting "No"

E & F Moved by Mr. Young: That recommendations "e" and "f" made by the President be approved.

Approved

Moved by Mr. Cooper: That the College Administration ask Budget Commission for reallocation of funds for the purpose of setting up the exchange.

Moved by Mr. Benet: That the adopted plan for exchange be carried out as soon as practicable.

Approved

Moved by Mr. Young: That the College Administration send someone to other institutions to determine how books and supplies are handled and discounts allowed.

48. At the request of Director D. W. Watkins it is recommended that the rewording of certain rules which appear in the administrative and fiscal rules of the Extension Service be approved. These changes are necessary in order to meet certain changes in state laws which have been passed since the rules were passed.

(3) Use of Privately Owned Automobiles: When necessary and when specifically authorized in advance, privately owned automobiles may be used by extension workers in performing official travel. Reimbursement for such use of privately owned automobiles shall be made at the rate per mile currently established by the State government by the shortest route. In addition expenses shall be paid for toll bridges and ferries. Only those privately owned automobiles whose owners carry adequate liability insurance shall be used in official work. The college disclaims any responsibility for accidents in which privately owned automobiles used in college service may be involved.

(6) Board and Lodging: Reimbursement from Smith-Lever funds and state funds shall be in accordance with actual expenditures not to exceed the amounts specified by state law for in state and out of state travel. These limits apply to either Pullman or hotel accommodations.

Copies of all telegrams sent or received, and a list of the long distance telephone calls, giving name of the station from which and the station to which the call was made, and the name of the person called should be attached to the expense voucher covering the service. County agents may call or wire supervisors or specialists collect, but expenses for other telegraph and long distance telephone messages will not be allowed; except that in case a county agent can save time and travel by making a long distance call to a farmer or business firm in his own county, he may be reimbursed for same out of his monthly travel allowance.
