Motion Adopted

3. The President requested that his action in awarding the degree of Master of Science upon Mr. Ko Chia Li of China be approved.

Motion Adopted.

4. The President of the college offered the following recommendation -

In order to secure efficiency in the administration of the affairs of the college, I recommend that the tenure of all teachers and officers terminate at the end of the fiscal year in which the teacher or officer reaches the age of seventy years, and that at the discretion of the President of the college such tenure may be terminated when the teacher or officer reaches the age of sixty-five years.

Feeling, however, that some provision should be made to furnish an annuity upon retirement for teachers and officers who have spent the greater portion of their lives in the service of the college, I beg leave to recommend that in consideration of the assignment to the college of the group insurance carried jointly by the college and the teacher or officer, the college enter into an agreement with the teacher or officer, upon retirement, to pay to each teacher or officer during his lifetime, $20.00 per month for each $1,000 of insurance assigned.

MOVED BY MR. LEVER: That the President's recommendation be adopted.
MOVED BY MR. BRADLEY: That the age limit be changed to sixty-eight, and the annuity be raised to $25.00 per month.

By acclamation the change in age limit was agreed to, but the annuity to remain at $20.00 per month per $1,000 insurance assigned.

MOVED BY MR. BARNETT: That Sec. 54 of the By-laws be stricken out, and the following substituted therefor:

"That the tenure of all teachers and officers shall terminate at the end of the fiscal year in which the teacher or officer reaches the age of sixty-eight years. That as a provision to furnish an annuity upon retirement for teachers and officers who have spent the greater portion of their lives in the service of the college, and in consideration of the assignment to the college of the group insurance carried jointly by the college and the teacher or officer, the college may enter into an agreement with the teacher or officer, upon retirement, to pay to each teacher or officer during his lifetime $20.00 per month for each $1,000 of insurance assigned."
