carefully located the types along the best route, checking for feasibility and desirability being considered, to present the facts to the faculty.

The report of the investigating committee was read, and the Board proceeded to take up and consider the same by item.

Clemson College, Dec. 12th, 1895.

To the Board of Trustees of the Clemson Agricultural College,

Gentlemen:

We your committee appointed to investigate the management of the College respectfully submit the following recommendations:

First: We consider the Academic Department unduly prominent, there being in this depart- ment four-three full professors and two as- sociates the latter paid $1,500.00 each, while in the Agricultural Department there is no full professor and in the Mechanical Department only one. In order therefore, to reduce the department to its proper proportion and to show our determination here to give special prominence to practical and scientific subjects, we recommend that salaries of literary professors range from $1,500.00 to $1,000.00.

Believing the success of the Mathematical Department to be greatly desired, because of the necessity of good grades, we recom- mend that he be requested to resign at such a time as may seem proper to the Board.

This and similar recommendations cause no much pain, but we cannot permit our sympathy for any individual...
to outweigh our interest in the welfare of students whose preparation for the responsible duties of life would be inextricably impaired by inefficient instructors.

Mechanical Department
Second. We believe that all of our instructors should be men of at least respectable education and we therefore recommend that Mr. Dilton whose education is lamentably deficient be requested to resign and that his place be filled by an expert of liberal education.

We do not recommend any immediate increase in the salaries of the instructors in the Mechanical Department, but recognizing the importance of having thoroughly trained men here, we recommend that our present instructors be urged to make use of every opportunity for improvement and that they be permitted, when ever practicable, to spend their vacations at special schools or universities offering advanced instruction in Mechanical Arts.

We think that the salaries of instructors in this department should be not less than $1,200.00 the present.

In as much as the Department of Physics was at the last meeting of the Board made a branch of the Mechanical Department, we recommend that the chair of Physics be abolished and that the professor in this department be paid from $800.00 to $1,000, thereby ranking with the other instructors in the Mechanical Department, and that he be requested to teach electrical or mechanical engineering.
Agricultural Department

Mr. J. M. Stark, our dairyman, has shown himself to be an expert in his work and we therefore recommend that his salary be increased to at least $1200.00.

Fitting School.

We recommend that Prof. Morrisey continue in charge of the Fitting School at a salary of $1500.00. As thorough preparatory training is indispensable to successful work in the college, failure in higher classes often being due to shoddy work in the fundamental branches, we recommend that hereafter only expert and experienced teachers be employed for the Fitting School and that the young men now assisting Prof. Morrisey be urged to fit themselves as much as possible by university training for the vocation of teaching. Since it is now easy to secure the services of men who after completing college courses have made special preparation at the universities for the work of teaching, we do not think it wise to employ here young men who have received only a general college education. Experienced teachers of established reputation would of course be exceptions to this rule.

In conclusion, we consider it the duty of the educators not simply to teach lessons but to strive to fill in and out of the class room by all means at his command to develop the dignity in mind and morals. We want no holdings at Clemens and we recommend that the Board henceforth retain only those professors who manifest by their acts a genuine love for their work and a
Nearly interested in all their pupils, especially in dull and backward boys. Their most need the encouragement of sympathetic teachers.

Respectfully submitted

R.M. Wipper
W.L. Sheldon
W.W. Stackhouse
Committee

Res. That Prov. Craighead and the Trustees be asked to present at the next meeting of the Board suitable names for places to be filled in the Mechanical Department.

Res. That a Committee consisting of Wm. Truitt, Clerk, and Horritt and Wannamaker be hereby appointed to search for and report to the next meeting of the Board a suitable Professor for the Chair of Agriculture.

Letter of Prov. Knight was read and referred to a Committee of three. This shall report to next meeting. Prov. Stackhouse added his report. Prov. Craighead was instructed to furnish the Secretary of the Agricultural Department with a room in the College.

Committee upon communication of Mr. Knight reports, declining to grant his request for increase of wages.

Res. That an assistant clerk be elected at the salary of $600.

This was ordered to be unanimous. Ballot for Mr. Wilcox as Assistant Clerk.

Governor Evans having accepted the invitation of the Board, I made his appearance and was welcomed and invited to address the body. After which they informally discussed the affairs of the College.
Resolved that the resignation of
23rd February.
Salary of Prof. Mathematics (Home) $1,073.00
J. F. Olds was elected to that chair.
Salary of Assistant Prof. Mathematics (Home) $800.00
Mrs. Tuttle in filling School at $600.00 $12.17.17
Salary of Clary & English $13.12.00
Prof. History $1,050.00
Instructor, Filling School $800.00
Instructor of Physics & Chemistry $1,073.00
Prof. Chemistry & Chief Chemist $2,073.00
Grade of assistant Chemist was abolished.
Salary of Assistant Chemist $150.00
A. U. Marshall (F. H.) was elected
Assistant Prof. Chemistry. Wilson $600.00
Chemist S. D. Shinn at $900.00 $1,850.00
Prof. Mechanics, etc. $1,575.00
Instructor in machine shop $700.00
in drawing, W. Hager was elected $700.00
Instructor Forge and Tool Shop $1,250.00
Instructor Wood Work $1,250.00
Assistant Prof. Agriculture $1,575.00
Prof. Agriculture $2,000.00
Prof. Agriculture & Dairying $1,250.00

Agricultural
Act of Experiment Station $600.00
Act of Board of Control $1,250.00
Salary of President $2,750.00
